WEDNESDAY JUNE 8.

Women voted at the school board election at Omaha on Monday, and of course republicans were elected.

They put telegraph wires in New York city under ground, and yet the scheme does more harm than telegraph wires.

General Butler declares that he asked only one little appointment from the present administration, and he didn't get that one. There are thousands of democrats whose hearts ache because they are in the same fix as General Butler is. They have got about all the offices, but there were not enough to go around.

Mme. Modjeska and her husband came to America in 1876 and undertook to found a Polish community in California. They bought land, built a house, purchased cattle and chickens and then swung hammocks under the trees, laid in a stock of cigarettes, and waited for the crops to grow. Modjeska herself cooked, scrubbed, milked cows and made butter. The usual failure of such enterprises awaited them, and when the money was all gone Modjeska determined to learn English and go on the stage. She is now a millionaire, and rich in honor and wealth in fame, and travels in a palace coach, her private property.

What is called a remarkable case is dispatched from Kentucky, and in effect is that a man named Samuel Bernard, who has been serving a short term for imprisonment for illicit distilling, and who was under indictment on a charge of murder at London, in the same state, set out to walk to the latter place immediately upon being released from jail, and covering 157 miles in two days, appeared in court to plead at the appointed time. Bernard knew on which side his bread was buttered. He knew that it was perfectly safe to plead before a Kentucky court to the charge of being a "nonconformist," or to the charge of committing murder. Kentucky courts do not look with grave suspicion on a man like Bernard. He simply walked 157 miles to receive vindication for being a thorough-going Kentuckian.

A committee of the Knights of Labor have reported to the executive board touching the work of the Forty-ninth congress. They especially condemn Hon. W. M. Springer for his opposition to the Letter-carriers eight hour bill and his advocacy of the Trade Diller bill. While the Reagan Inter-state bill is approved, they opposed the Cullom measure, a veto of which was refused by President Cleveland. Congress is also condemned by the report for not passing land-forfeiture bills, and allegations are made that crooked work was done by land attorneys and shyster lawyers. The action of Messrs. Carlisle, Randall and Morrison in certain matters is also severely criticized. After all this condemnation and rebuke, probably Congress won't have the courage to meet in extra session in October.

The news is current that the friends of J. M. Morrow, the United States collector in the sixth district of this state, are making an earnest effort to have the president's order modified, so as to make La Crosse the headquarters of the western collection district of the state instead of Madison. They show that the collections in the Sixth district increased about eleven per cent last year while those in the Madison district declined. Further, about fifty per cent of the internal revenue in the Sixth district is collected in La Crosse and its immediate vicinity. There is no use combatting Madison, for in this instance Madison will prevail. The postmaster general has taken our sister city under his political wings, and it must be cured for regardless of expense. Madison is fortunate in having a pretty tight grip on the present administration.

Mr. Blaine and his family start for Europe to-day, where they will spend considerable time. There has been a good deal of talk touching Mr. Blaine's programme while in Europe. It has been supposed that he would make some speeches in London, stir up the Britishers as he used to stir up the rebel brigadiers in the house of representatives, then cross over to Ireland, and there begin his campaign by making some enthusiastic speeches on home rule. Of course this would make an exciting and interesting canvass over the waters, and it would set the American Irish about themselves for James G. Blaine. But Mr. Blaine is never without his reason. He has been interviewed regard to his trip abroad, and especially concerning his public speeches. He says he will make no political speeches either in England or Ireland, and further that any American who would go to Europe to pander to any sentiment there that he might initiate a boom here, could not and should not receive a nomination for the presidency or any other office.

The forty-first annual session of the grand lodge of Wisconsin of the Independent Order of Odd Fellows, began at Madison on Tuesday. These frats are well worth being reproduced here in regard to the growth of the order in the United States and in Wisconsin. The first lodge of Odd Fellows in the United States was founded at Baltimore, Md., in 1819. On April 27 of that year Thomas Wilsey and four associates organized Washington Lodge No. 1, and from that beginning the order has flourished until it numbers considerable over 500,000 members. Its growth has been marvelous. The grand lodge of the United States, which held supreme jurisdiction over the order in America, having spread its influence throughout the globe, is now acknowl-

## TRADE CONVENTIONS.

### AMALGAMATED IRON WORKERS IN SESSION.

Rumors that an Advance in Wages will be Demanded—Gathering of the Types at Buffalo-Etc.

PHILADELPHIA, Pa., June 8.—The annual convention of the Amalgamated Iron and Steel Workers' association opened here yesterday. A large amount of business is on hand, and it is expected will be in session for two weeks. The most important visitors to be considered are the delegates with the Knights of Labor, the scale of wages for the ensuing year, and the advisability of still further strengthening the organization by the admission, under new classification, of men hitherto excluded, in order that all skillful mill labor may have a representation. Many influential delegates are understood to favor the admission of steel-melters and pipe-fitters, and if they carry their point, the number of the association will be increased 25,000 within a few months. The session will be opened by President Weller, consisting of sixteen representatives from the six districts, who have been in session since Friday, presenting their report, and it is understood, will recommend a general advance all along the line. A new constitution and by-laws is to be issued by the convention, and the new rules to be enforced will largely benefit the association.

### YACHTSMEN SURPRISED

At the Way the Atlantic Bent Some Cruel Sticks.

NEW YORK, June 8.—The Atlantic yacht club held its annual spring regatta Tuesday under conditions that were favorable to a very pretty race after the first half hour and which was productive of at least one big surprise. The astonisher was in the easy victory of the Atlantic, whose lines have been more exalted than any yacht ever built excepting the Thistle. It may have been the good judgment of her owner and sailing master, ex-Commander Fish, or it may have been the skill of the crew, or it may have been Harry Cole, of Chicago, receiving 30 votes on the first. Edward T. Plank, of San Francisco, was elected first vice-president, and D. M. Pasco, of Philadelphia, secretary-treasurer. A hot debate arose over the question of abolishing the office of chief organizer, and the matter went over.

**The Shamrock**, designed, owned, and sailed by J. Regan Maxwell, had the best work of the day. She started last among the big boats. In fact, was handicapped by five seconds, yet finished second, and gained on every thing on the run home before the finish. It had been a close race with the Priesslin and the cutter Galatea in a way that surprised everybody.

Other games: At Detroit—Detroit 6, Pittsburgh 6; at Philadelphia—Philadelphia 15, New York 14; seven inches darkness. The Washington-Boston game was postponed.

Association record: At Baltimore—Baltimore 10, Louisville 6; at New York—Metropolitan 6, St. Louis 3; at Philadelphia—Athenaeum 6, Boston 6; at Pittsburgh—Cleveland 6, Brooklyn 2.

Shooting at Grand Crossing.

CURACAO, June 8.—The thirteenth annual convention and tournament of the Illinois Sportsmen's Association will be held June 13 to 18, the convention occurring at the Palmer house on the 14th. The tournament will take place at Wabash's park, Grand Crossing. The prizes aggregate in value nearly \$1,800, the last price of each day being a diamond badge or a cup. These prizes are as follows: First day, first prize, diamond badge worth \$300; second day, cup worth \$300; first prize third day, diamond badge worth \$100, and four other diamond badges worth \$20.

Jerome Park and St. Louis.

NEW YORK, June 8.—Six races took place Tuesday at Jerome park course, resulting: My Own, 1/2 mile, 1:05 1/4; Saxony, 1 1/2 miles, 1:41 1/2; Tarboche, 1 1/4 miles, 2:15; Richmond, 1 1/2 miles, 2:14; Leelanau, 3/4 mile, 43 1/2; Harborough, steeplechase, short course, 4:50 1/2.

ST. LOUIS, June 8.—At the races here Tuesday Gold Flax was the 1/2 miles in 2:00; Danube, the 1 1/2 miles in 2:13; Waverly, the 1 1/2 miles in 2:16; Rosedale, the 1 1/2 miles in 2:00; and Tennessee the steeplechase, full course, in 5:21 1/2.

Shooting for Illinois.

SPRINGFIELD, Ill., June 8.—The Senate Tuesday agreed to the house amendments to the jury commission bill; amended the militia bill by appropriating \$20,000 for the militia, and \$10,000 for the national guard; appropriated \$10,000 for the militia to regulate their pay, and the tax law bill. The militia bill failed to pass. Notices were given of motions to reconsider the jury commission bill, the tax law bill, and the telephone bill. The house passed the appropriation of \$25,450 for the Kankakee asylum, the appropriation of \$11,332 for the Carbondale normal school, \$217,000 for the Jacksonville deaf and dumb asylum and \$16,100 to the state laboratory; also the appropriation of \$80,000 for legislative and official salaries, and \$1,100 to the State Library and association. The militia bill was passed, but the bill limiting the amount to \$100,000 that any person or corporation may acquire by lease from the state was killed. The bill was passed giving owners of railroads on their lot a right to lease their land to the State Horticultural society; the mud and muck bill; appropriating \$163,300 for Chester post roads; allowing soldiers under execution to designate an armistice day.

A Michigan Judge Appointed.

JANESVILLE, June 8.—Gov. Luce has appointed R. E. Peckham, a Judge of the State court, to succeed Judge Follett, who recently absented. There was a very lively contest over the place. Mary A. Mayo, wife of Senator Mayo, has been appointed a member of the Board of Control of the State Industrial Home for Girls, to succeed Mrs. Fuller, resigned.

Browned Up by Dynamite.

NEW YORK, June 8.—The crowd of George Mason's colored, was blown to atoms by a dynamite bomb yesterday morning. Mason and his family lived in the upper part of the building, but miraculously escaped unhurt. A long existing enmity between the suspected persons and Mason and other colored citizens is understood to be the cause of the outrage.

Jersey Leather Workers on Strike.

NEW YORK, June 8.—About 250 of the 200 men employed by R. G. Salter's leather factory, in Newark, struck yesterday. They say Mr. Salter refused to live up to an agreement made last January, that the men room should not be required to do more than forty hours in a day, and that recently Mr. Salter has required them to do forty-three hours.

All medical authorities agree that catarrh is no more nor less than an inflammation of the lining membrane of the nasal air passages. Nasal catarrh and all catarrhal affections of the head are not diseases of the blood, and it is a serious mistake to treat them as such. No conscientious physician ever attempts to do so. It is held by eminent medical men that sooner or later a specific will be found for every disease from which man suffers. The facts justify me in assuming that for catarrh at least a positive cure already exists, in Ely's cream bath.

## CONDENSED DISPATCHES.

The death of Judge William Murray, of the Supreme bench of New York, is announced.

Two boys, aged respectively 9 and 11, were arrested at New York Tuesday for the murder of an aged Italian.

Lyman G. Clegg, vice-president of the First National bank of Chicago, was married at Denver, Tuesday, to Mrs. Coraella M. Clegg, widow of the groom's brother.

A locomotive boiler exploded at Chester, Pa., Tuesday, killing one man and injuring a dozen persons, some of them fatally. The engineer sat in his cab and escaped unburned.

The New York, Wheeling, St. Louis & Chicago railway company has been incorporated, with capital stock of \$14,000,000. Its lines will extend from Wheeling to East St. Louis, and from Lancaster, Ohio, to Fort Wayne, Ind.

The annual report of the Pennsylvania company operating the Fort Wayne, Panhandle, and other lines of the Pennsylvania system west of Pittsburgh shows an increase of 10,200 passengers for 1886 over the preceding year of \$1,200,000.

A decision just rendered by the Niagara Supreme court in effect makes the Iron Mountain railway independent of local legislation at St. Louis, and gives it right of way through all the streets of that city that it may desire to use for extensions.

The regatta of the Atlantic Yacht club was sailed Tuesday in New York bay. The first race, contested by the Atlantic, Priscilla, and Galatea, was easily won by the Atlantic. The contest between the wooden sloops Shimrock and Titania resulted in a victory for the former.

The wheat crop of Ohio is estimated by the State Board of Agriculture at 20,360,393 bushels, a shortage of 6,270,000 bushels as compared with the average of the past seven years.

The prospects of oats and meadows have been improved by the recent rains. The wheat crop of California will fall considerably below that of last year.

STRAIGHT TALK.

Morning That None Can Tell to Readers.

We are pleased to note every indication of the coming of that business "boom" for which we have so long and patiently labored. An increasing interest and activity in real estate is a gratifying indication that "de good time coming is almost here." Foremost among those who are contributing to this result, we find C. E. Bowles, and we note as evidence of this, the following sales which have been negotiated by him during the past sixty days, viz.: A house and lot on Milton avenue, to Mrs. Judith M. T. Tamm, price \$1,000; the property of Dr. Phil Fox, on Madison street, first ward, to E. F. Welch, for \$2,100; the Crandall property on Terrace street, to C. T. Shepard for \$500; the J. V. Little farm of 150 acres, in section 34, Rock, sold to Morris Pratt for \$3000. The Shopbell property, corner Wall and Washington streets to J. W. Nash for \$1,800; the home of A. B. Clark on East Milwaukee street to R. B. Harper for \$1,550; house and lot on Mineral Point avenue, W. T. Vankirk for \$300. The two lots owned by J. M. Pool, corner Jackson and Ravine streets sold to E. G. Eifeld for \$500; house and lot owned by Mrs. A. C. Grilling on Pearl street to J. W. Nash for \$500. We congratulate Mr. Bowles, the public and ourselves upon the above showing, and venture the prediction that this is but the beginning of what will prove to all a glorious year.

At May be the Opportunity of Your Life.

An unusual event in the financial events of America, will occur, beyond all doubt, at New Orleans, La., on Tuesday, June 14th, 1887, when the grand extraordinary semi-annual drawing (the 20th Monthly) of the Louisiana State Lottery will take place, under the sole supervision of G. G. T. Beauregard of La., and J. B. Earl of Va., and \$1,000,000 will be scattered among holders of tickets for the sum of \$100,000,000. The lottery is the native power that does the churning. Seven men do the manual labor inside besides thirteen teamsters with two horses each, gathering cream daily, and what the farmers bring in. The factory runs every day in the winter. It is the intention of the owner to rebuild this fall, and enlarge his establishment, so that he can enlarge his business, although he says his establishment is now the largest of any single factory in the United States. He says there are many who are doing more business than the kind, but have more difficulty in doing it.

The Methodist church is being reconstructed and the organ will be dedicated on June 1st. The Methodist church is being reconstructed and painted.

The telephone company are repairing the line in this village to-day.
